

Remarks

In this Amendment, Applicants have amended claims 20, 31, 77, and 84. Applicants do not surrender any equivalents to any amended limitations. Applicants have not added or changed the scope of the allowed claims. Accordingly, Applicants request that the above amendment to the claims be entered pursuant to 37 CFR §1.312.

1. Why the amendment is needed

This amendment is needed to correct several typographical or antecedent errors.

2. Why the amendment require no additional search or examination

The Examiner has already stated in the Notice of Allowance dated July 27, 2009 that the claims are allowed. Therefore, these amendments to correct the errors require no additional search or examination.

3. Why the claims are patentable

Applicants have not added any new claims or changed the scope of the allowed claims. Therefore, the claims are patentable.

4. Why the claims were not presented earlier

The amendments were not presented earlier because Applicants did not notice the errors until now.

Conclusion

In view of the foregoing, Applicants respectfully request that the amendment to the claims above be entered pursuant to §1.312. Applicants have submitted all known required fees and petitions. Accordingly, Applicants believe that no additional fees, petitions for extensions of time, other petitions, and/or other forms of relief are required for the submission of this Amendment. However, in the unlikely event that the Commissioner determines that additional fees, petitions for extensions of time, other petitions, and/or other forms of relief are required, Applicants hereby make such petitions as are required, request such extensions of time and other forms of relief as are required, and authorize the Commissioner to charge the cost of such petitions for extensions of time, other petitions, and/or other forms of relief to **Deposit Account No. 50-3804** referencing **APLE.P0004C**.
